Ambition

Adaptation Pyramid:

- Tool for setting concrete ambitions and goals
- Promote transformative adaptation

More info

Action

Climate Adaptation Platform Netherlands

- Adaptation measures database
- 'Get started' section
- Examples for inspiration

CAP NL

Dealing with different contexts

'What we need' depends on the local context and culture

Example: communicating climate impacts through climate stories

Climate
stories

Curaçao is changing

Tsean and the rising seawater

Tsean and his best friend Luka live next to the sea. They love spending time at the beach, their favorite place to play, swim, and especially snorkel. One Saturday morning, they decide to head to the beach. But this day was different from all the others.

Thank you!
